OF RESULTS OF OPERATIONS
AND FINANCIAL CONDITION**

FOR THE THREE MONTHS ENDED MARCH 31, 2016

MAY 11, 2016

MANAGEMENT’S DISCUSSION AND ANALYSIS

The following Management’s Discussion and Analysis of the financial performance financial condition, and cash flows (“MD&A”) of Terra Firma Capital Corporation (the “Company”) dated May 11, 2016 for the three months ended March 31, 2016 should be read in conjunction with the Company’s unaudited condensed consolidated interim financial statements and accompanying notes for the same period as well as the Company’s annual MD&A for the year ended December 31, 2015 and audited consolidated financial statements for the same period. These documents are available under the Company’s profile on SEDAR at WWW.SEDAR.COM

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this MD&A constitute forward-looking information within the meaning of Canadian securities laws. Forward-looking statements are provided for the purposes of assisting the reader in understanding the Company’s financial performance, financial condition and cash flows as at and for the periods ended on certain dates and to present information about management’s current expectations and plans relating to the future and readers are cautioned that such statements may not be appropriate for other purposes. Forward-looking information in this MD&A includes statements with respect to market opportunities for the identification and funding of loans, the provision to the Company of a consistent flow of quality investment opportunities, as well as other statements under the heading “Future Outlook”, and may relate to future results, performance, achievements, events, prospects or opportunities for the Company or the real estate industry and may include statements regarding the financial position, business strategy, financial results, real estate values, interest rates, loan to cost, plans and objectives of or involving the Company. In some cases, forward-looking information can be identified by such terms such as “may”, “might”, “will”, “could”, “should”, “would”, “occur”, “expect”, “plan”, “anticipate”, “believe”, “intend”, “seek”, “aim”, “estimate”, “target”, “project”, “predict”, “forecast”, “potential”, “continue”, “likely”, “schedule”, or the negative thereof or other similar expressions concerning matters that are not historical facts.

Forward-looking statements necessarily involve known and unknown risks and uncertainties that may be general or specific and which give rise to the possibility that expectations, forecasts, predictions, projections or conclusions will not prove to be accurate, that assumptions may not be correct and that objectives, strategic goals and priorities will not be achieved. A variety of factors, many of which are beyond the Company’s control, affect the lending operations, performance and results of the Company and its business, and could cause actual results to differ materially from current expectations of estimated or anticipated events or results. These factors include, but are not limited to, the risks discussed in the Company’s materials filed with Canadian securities regulatory authorities from time to time, including the risks discussed herein at “Risks and Uncertainties”. The reader is cautioned to consider these and other factors, uncertainties and potential events carefully and not to put undue reliance on forward-looking statements as there can be no assurance that actual results will be consistent with such forward-looking statements.

Information contained in forward-looking statements is based upon certain material assumptions that were applied in drawing a conclusion or making a forecast or projection, including management’s perceptions of historical trends, current conditions and expected future developments, as well as other considerations that are believed to be appropriate in the circumstances, including the following: the Canadian economy will remain stable over the next 12 months; inflation will remain relatively low; interest rates will remain stable; conditions within the real estate industry will be consistent with the current climate; and the referenced above, collectively, will not have a material impact on the Company. While management considers these assumptions to be reasonable based on currently available information, they may prove to be incorrect.

The forward-looking statements made in this MD&A relate only to events or information as of the date on which the statements are made in this MD&A. Except as specifically required by applicable Canadian law, the Company undertakes no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events.

BASIS OF PRESENTATION

The Company's unaudited condensed consolidated interim financial statements for the three months ended March 31, 2016 have been prepared in accordance with International Accounting Standard 34 – Interim Financial Reporting (IAS 34). The Company's presentation currency is the Canadian dollar.

CHANGE IN REPORTING PRESENTATION

The Company made a change to the reporting presentation of foreign exchange gains and losses, which is now excluded from reported revenues and is included in expenses on a prospective basis. During the year ended December 31, 2015, foreign exchange gains were included in revenue of the Company. All prior comparisons have been adjusted to reflect this change.

BUSINESS OVERVIEW AND STRATEGY

The Company was incorporated under the *Business Corporations Act* (Ontario) on July 26, 2007. The common shares of the Company ("Shares") trade on the TSX Venture Exchange (the "Exchange") under the symbol TII. The registered office of the Company is: 5000 Yonge Street, Suite 1502, Toronto, Ontario, M2N 7E9.

The principal business of the Company is to provide real estate financings secured by investment properties and real estate developments throughout Canada and the United States. These financings are made to real estate developers and owners who require shorter-term loans to bridge a transitional period of one to five years where they require capital at various stages of development or redevelopment of a property. These loans are typically repaid with lower cost, longer-term debt obtained from other Canadian financial institutions once the applicable transitional period is over or the redevelopment is complete, or from proceeds generated from the sale of the real estate assets.

The types of real estate assets for which the Company arranges financings include residential buildings, mixed-use properties, and land for residential and commercial development and construction projects.

These loan and mortgage financings generally take the form of:

- (i) Land loans registered in first position or second position at the earlier stages of real property development and either subsequently postponing to construction financing or being discharged upon the funding of construction financing, as the project progresses through the development cycle,
- (ii) Term mortgages for the purposes of acquiring or re-financing income producing properties, or
- (iii) Mezzanine / subordinated debt financings of real property developments that have either progressed to the construction phase or are in the process of approaching construction phase.

These financings generally represent loan to cost and loan-to-value ratios of 80%, including all prior encumbrances at the time of underwriting of each loan. In some cases the loan-to-value ratio could increase to 90%. The "loan-to-value" ratio means the ratio, expressed as a percentage, determined by $A/B \times 100$, where: (A) is the principal amount of the mortgage, together with all other equal and prior ranking mortgages or tranches of mortgages on the real estate; and (B) is the appraised value of the real estate securing the mortgage at the time of funding the mortgage or in a more recent appraisal, if available.

In addition, the Company participates in the development of real estate in Canada and in the United States by providing equity-type financing to developers. These financings provide a minimum return and/or a share of remaining net cash flow from projects, and may be undertaken as a strategic partnership with established developers to pursue the development of real properties ("Joint Arrangements" or "Joint Operations") or an equity investment by the Company in an entity that carries on the business of real estate development ("Portfolio Investments"). The Company generally provides these financings in the form of equity in the entity that holds the real estate asset. When making an equity investment, the Company prefers to invest in the form of preferred equity which ranks ahead of the developers' or owners' common equity in the project or the entity that carries on the business of real estate development, thereby, providing the Company with the capital protection through subordination.

TERRA FIRMA CAPITAL CORPORATION – MD&A

The objectives of the Company are to originate, create and maintain diversified portfolio of real estate loans and mortgage investments (the “Loan Portfolio”), to preserve the Company’s capital while earning attractive risk-adjusted returns and to create shareholder value over the long-term, through capital appreciation, and payment of dividends (from time to time as the Board of Directors considers appropriate).

Management believes that there is currently a significant market opportunity to identify and fund such loans as a result of financing needs not being met by traditional institutional lenders. Through management’s relationships with mortgage lenders, brokers, local sponsors and other market participants, the Company is able to identify real estate opportunities where it can provide financing solutions to borrowers while achieving equity-like returns at reduced risk levels as compared to straight equity ownership. The Company differentiates itself by serving these niches with an experienced financing team which generally can provide more flexible terms and creative structuring. Management believes its experience with real estate investments and industry contacts will provide the Company with a consistent flow of quality investment opportunities.

Investment in real estate comprises a variety of “tranches” with highly differentiated risk/return characteristics based on their position in the capital structure and subordination levels. The Company strives to achieve “equity-like” returns on its Loan Portfolio while bearing lower risk than equity investments, by structuring its financings in a “debt-like” structure.

INVESTMENTS

LOANS AND MORTGAGE INVESTMENTS

The Company’s Loan Portfolio as at March 31, 2016 consisted of (a) loans relating to 24 residential housing developments, comprising 1,647 high rise units, 886 mixed use developments consisting of low and high rise condominium units, and 1,525 low rise houses and condominium units, representing 70.4% of the Loan Portfolio (by investment amount), (b) two residential income properties consisting of 198 rental units in Toronto and Ottawa, Ontario, representing 4.0% of the Loan Portfolio (by investment amount), (c) land and lot inventory of real estate assets to be developed, located in Ottawa, Ontario; Markham, Ontario; Charlotte, North Carolina; Orlando, Florida; and Tampa Bay, Florida, representing 24.5% of the Loan Portfolio (by investment amount) and (d) a commercial retail development located in Mississauga, Ontario, representing the remaining 1.1% of the Loan Portfolio (by investment amount).

The Company’s Loan Portfolio as at December 31, 2015 consisted of (a) loans relating to 21 residential housing developments, comprising 1,647 high rise units, 886 mixed use developments consisting of low and high rise condominium units, and 1,525 low rise houses and condominium units, representing 68.5% of the Loan Portfolio (by investment amount), (b) two residential income properties consisting of 198 rental units in Toronto and Ottawa, Ontario, representing 3.6% of the Loan Portfolio (by investment amount), (c) land and lot inventory of real estate assets to be developed, located in Ottawa, Ontario; Markham, Ontario; Charlotte, North Carolina; and Tampa Bay, Florida, representing 26.6% of the Loan Portfolio (by investment amount) and (d) a commercial retail development located in Mississauga, Ontario, representing the remaining 1.3% of the Loan Portfolio (by investment amount).

The following table presents details of the Loan Portfolio as at March 31, 2016 and December 31, 2015:

TERRA FIRMA CAPITAL CORPORATION – MD&A

As at March 31, 2016 and December 31, 2015, the principal balance of the Loan Portfolio was \$118,158,434 and \$95,613,267, respectively. The increase in Loan Portfolio in the first quarter of 2016 resulted from the net effect of funding of loan investments of \$24,028,239, advances against existing loan commitments of \$2,802,790, capitalized interest of \$633,331, which aggregate amount was offset by the repayment of two loans totaling \$2,542,891 and unrealized foreign exchange loss of \$2,376,302.

The following table summarizes the change in the Loan Portfolio for the three months ended March 31, 2016:

	Amount
Balance, beginning of period	\$ 95,613,267
Loan Portfolio activity during the period	
Funding of new loan investments	24,028,239
Advances against existing loan	2,802,790
Repayments of loans	(2,542,891)

Mortgages are secured by real estate assets and may include other forms of security. Unregistered loans are not secured by real estate assets, but are secured by other forms of security, such as personal guarantees, or pledge of shares of the borrowing entity.

On March 9, 2016, the Company advanced a loan of \$10,000,000 to a borrower (the “Borrower”), secured by two properties and a 50% interest in a development project. The loan agreement provided the Company an option to purchase the 50% interest in the development project for a fair market value of \$7,000,000, which would reduce the loan by the same amount. On April 15, 2016, the Company exercised its option and acquired the 50% interest in the development project for \$7,000,000, reducing the loan investment amount to \$3,000,000.

The following table presents details of the Company’s loan categories as at March 31, 2016 and December 31, 2015:

	March 31, 2016	% of Investments	December 31, 2015	% of Investments
Mortgages	\$ 111,708,355	94.5%	\$ 91,691,123	95.9%
Unregistered loans	6,450,079	5.5%	3,922,144	4.1%
	\$ 118,158,434	100.0%	\$ 95,613,267	100.0%

The weighted average effective interest rate of the Loan Portfolio at March 31, 2016 and December 31, 2015 was 15.6% and 15.8%, respectively. The current yield indicates the Company’s continued focus on the quality of security through placing its capital in more senior positions in the capital structure and reducing its exposure to unregistered loans. The higher level of security and lower weighted average interest rates have not had significant impact on the Company’s overall profitability given the Company’s focus on the spreads. See – “Financial Performance” and “Capital Structure and Debt Profile – Loan And Mortgage Syndications”.

The weighted average effective interest rates of the loans and mortgage investments of residential housing developments at March 31, 2016 and December 31, 2015 were 16.1% and 16.3%, respectively and the weighted average effective interest rates of the residential income properties at March 31, 2016 and December 31, 2015 were 14.3% and 15.9%, respectively. The weighted average effective interest rates of the loans and mortgage investments of lot inventory at March 31, 2016 and December 31, 2015 were 14.3% and 14.5%, respectively. The weighted average effective interest rates of the commercial retail development and land at March 31, 2016 and December 31, 2015 was 15.8%.

TERRA FIRMA CAPITAL CORPORATION – MD&A

The weighted average term to maturity at March 31, 2016 and December 31, 2015 was 1.47 years and 1.43 years, respectively. The relatively short term to maturity of the Loan Portfolio allows for reinvestment of the portfolio in response to changing market conditions.

The following table presents details of the Company's principal balances of Loan Portfolio segmented by geography as at March 31, 2016 and December 31, 2015:

	March 31, 2016	% of Investments	December 31, 2015	% of Investments
Canada	\$ 76,310,351	64.6%	\$ 57,551,220	60.2%

	\$ 118,158,434	100.0%	\$ 95,613,267	100.0%

Scheduled principal repayments and the Loan Portfolio maturing in the next five years are as follows:

	Scheduled principal payments	Investments maturing during the year	Total loan and mortgage investments
Remainder of year	\$ -	\$ 38,287,499	\$ 38,287,499
2017	-	35,896,394	35,896,394

2020	-	15,000,000	15,000,000
	\$ -	\$ 118,158,434	\$ 118,158,434

Certain of the loans have early repayment rights which, if exercised, would result in repayments in advance of their contractual maturity dates.

Pursuant to certain lending agreements, the Company is committed to fund additional loan advances. The unfunded loan commitments under the existing Loan Portfolio at March 31, 2016 amounted to \$17,206,274, including \$13,517,877 of capitalization of future interest relating to the existing Loan Portfolio compared to \$18,455,100, including \$11,733,451 of capitalization of future interest relating to the Loan Portfolio at December 31, 2015.

On February 20, 2015, the Company exercised its option to convert a loan and mortgage investment in a 668 unit high-rise condominium development project (the "Lan Project") located in Toronto, Ontario, into a partnership interest (the "Lan Partnership") in the development project. The carrying balance of loan and mortgage investment at the time of conversion was \$14,821,313 of which \$11,675,000 was syndicated. Certain of the syndicate investors in the amount of \$5,125,000 elected not to convert their share of interest in the loan investment into a LP interest in the Lan Partnership and syndicate investors in the amount of \$6,550,000 converted their share of interest in the loan investment into a short-term unsecured notes payable. See – "Investments – Portfolio Investments" and "Capital Structure and Debt Profile – Short-term unsecured notes payable".

The investments comprising the Loan Portfolio are classified as financial assets and categorized as loans and receivables. Loans and receivables are initially recognized at the amount expected to be received less, when material, a discount to reduce the loans and receivables to fair value. Subsequently, loans and receivables are measured at amortized cost using the effective interest rate method less any provision for impairment. The Loan Portfolio is reviewed on a quarterly basis to determine any such impairment.

TERRA FIRMA CAPITAL CORPORATION – MD&A

The Company assesses individually all investments at each reporting date to determine whether there is objective evidence of impairment. The Company uses judgement, taking into account the loan to value of the security, credit quality, payments in arrears, financial difficulty of the underlying asset, as applicable, financial difficulty of the borrower and/or guarantor, and general economic and real estate market conditions for reasonable assurance of timely collection of the full amount of principal and interest and to determine whether any future losses are expected to occur in order to recognize a specific loan provision. As at March 31, 2016 and December 31, 2015, the Company has concluded that there is no objective evidence of impairment on any individual loan and mortgage investments.

The Company also assesses collectively for impairment to identify potential future losses by grouping the loan and mortgage investments with similar risk characteristics, to determine whether a collective allowance should be recorded due to loss events for which there is objective evidence but whose effects are not yet evident. Based on the amounts determined by the analysis, the Company used judgment to determine whether or not the actual future losses are expected to be greater or less than the amounts calculated. As at March 31, 2016, the Company has recognized a collective impairment provision of \$590,792 (December 31, 2015 - \$478,066).

The changes in the allowance for mortgage investments loss during the three months ended March 31, 2014 and year ended December 31, 2015 was as follows:

	March 31, 2016	December 31, 2015
Balance, beginning of period	\$ 478,066	\$ -
Provision for loan and mortgage investment loss	112,726	478,066
Balance, end of period	\$ 590,792	\$ 478,066

At March 31, 2016, the loans outstanding including interest receivable from the Borrower and its affiliates totalled \$22,964,712, of which \$3,030,657 is syndicated to investors, for a net loan amount of \$19,934,055. Subsequent to March 31, 2016, the Company repaid \$1,000,000 to its syndicate investors and further reduced its loan exposure to the Borrower and its affiliates by \$7,000,000, through the Company exercising its option as noted above, for a net loan amount \$13,934,055.

At March 31, 2016, loan and mortgage investment totaling \$12,863,396 (including interest receivable on these loans totalling \$683,961) to the Borrower and its affiliates, are in arrears, of which \$3,030,657 including interest payable have been syndicated. The foreclosure/power of sale process has commenced and is proceeding on these loans to enforce the security. Subsequent to March 31, 2016, certain affiliates of the Borrower announced restructuring proceedings under the *Bankruptcy and Insolvency Act (Canada)*. Based on the most recent valuations of the underlying assets, the Company has not identified any loans in arrears for which a loss provision should be made.

JOINT ARRANGEMENTS

INTERESTS IN JOINT OPERATION

In July 2009, the Company entered into a co-tenancy agreement (the "Montreal Street JV") with a development partner and subsequently developed a retail property in Ottawa, Ontario. The land on which the store was developed is subject to a 20 year land lease, with five renewal options of five years each. The Montreal Street JV is subject to joint control and the Company records its proportionate share of the related assets, liabilities, revenue and expenses of the properties using the proportionate consolidation method. The Company's ownership interest in the Montreal Street JV is 52.5%. The Montreal Street JV carries a loan of \$2,022,530 bearing interest at 4.2% per annum, is amortized over 25 years and matures June 1, 2016. The Company and its JP partner are in the process of renewing the mortgage.

TERRA FIRMA CAPITAL CORPORATION – MD&A

The financial information in respect of the Company's investment in jointly controlled operations is as follows:

	March 31, 2016	December 31, 2015

Balance, December 31, 2015	\$ 2,143,794
Balance, March 31, 2016	\$ 2,143,794

TERRA FIRMA CAPITAL CORPORATION – MD&A

The Company determined the fair value of investment property in the Montreal Street JV using the direct capitalization method. Under the direct capitalization method, fair values were determined by capitalizing the estimated future net operating income at the market capitalization rates. The carrying value of the Company's proportionate share of investment property in the Montreal Street JV is \$2,143,794. At March 31, 2016 and December 31, 2015, the fair value was determined by the Company's management. The capitalization rate used in the valuation property was 6.50%. The carrying value of investment property in the Montreal Street JV at March 31, 2016 approximated its fair value.

As at March 31, 2016 and December 31, 2015, a 25-basis-point decrease in the overall capitalization rate would increase the Company's proportionate share of value of investment property in the Montreal Street JV by \$89,600 and a 25-basis-point increase in the overall capitalization rate would decrease the Company's proportionate share of the value of investment property in the Montreal Street JV by \$82,500.

PORTFOLIO INVESTMENTS

The Company has invested, through its subsidiary Terra Firma Capital (Hill) Corporation (the "Hill") (78.95% owned by the Company), in a partnership interest in a 94 unit mid-rise condominium development project located in Toronto, Ontario. The Company does not have significant influence in the partnership and is accounting for its investment as a financial asset at fair value through profit and loss. The carrying value of the investment at March 31, 2016 is \$1,174,212 (December 31, 2015 – \$1,174,212) and the investment of the other partner in the Hill of \$210,655 is included in non-controlling interest. At March 31, 2016 and December 31, 2015, the fair values were determined using the direct comparison method. The fair value of the investment at March 31, 2016 and December 31, 2015 was \$1,174,212.

The Company, through TFCC LanQueen Ltd. (the "TFCC LanQueen") entered into a partnership agreement (the "Agreement"), whereby TFCC LanQueen is committed to invest up to \$1,326,400 in redevelopment project located in Toronto, Ontario. The Agreement allows TFCC LanQueen to receive a 3% fee at the time of commitment and an amount by way of a preferred return equal to 10% per annum calculated and compounded monthly on the amount of its investment in the partnership. TFCC LanQueen. does not have significant influence in the partnership and is accounting for this investment as a financial asset at fair value through profit or loss. As at March 31, 2016, TFCC LanQueen. contributed \$924,000 (December 31, 2015 - \$924,000) in the partnership. At March 31, 2016 and December 31, 2015, the fair value was determined by the management, using the direct comparison method. The fair value of investment at March 31, 2016 and December 31, 2015 was \$1,165,343.

The following table summarizes the changes in the Portfolio Investments for the three months ended March 31, 2015 and 2016:

INVESTMENT IN ASSOCIATES

On February 20, 2015, the Company, together with certain existing syndicate investors, exercised their option to convert the loan and mortgage investment into equity investment in the Lan Project into an equity investment through equity in the Lan Partnership. The subject loan was funded in February 2013 and the conversion was subject to the project achieving a level of presales, zoning and construction financing. As the Lan Project achieved these conditions to the Company's satisfaction, the Company elected to convert. The Company acts as a general partner of the Lan Partnership and is entitled to receive a carried interest of 10% at the end of the Lan Partnership's life. The Company does not earn carried interest until the limited partners in the Lan Partnership have achieved cumulative investment returns on invested capital in excess of a 10% per annum hurdle rate. The Company exerts influence in the Lan Partnership and accounts for this investment using the equity method of accounting.

As at March 31, 2016 and December 31, 2015, the Lan Partnership had \$13,333,333 invested in the Lan Project. At March 31, 2016 and December 31, 2015, the Company's share of investment in the Lan Partnership was \$2,315,414. At March 31, 2016 and December 31, 2015, the fair value of the investment in the Lan Partnership was determined by the management, using the direct comparison method. The fair value of investment at March 31, 2016 and December 31, 2015 approximated the carrying value.

The following table summarizes the changes to the carrying value of investment in associate for the three months ended March 31, 2015 and 2016:

	Amount

FINANCIAL PERFORMANCE

The Company's financial performance for the three months ended March 31, 2016 and 2015 is summarized below:

	Three months ended,		
	March 31, 2016	March 31, 2015	Change Increase/ (decrease)
Revenue			
Interest and fees earned	\$4,221,156	\$3,960,412	\$ 260,744
Rental income	48,378	47,348	1,030
Total revenue	4,269,534	4,007,760	261,774
Expenses			
Property operating costs	16,092	15,254	838
General and administrative expenses	658,145	798,024	(139,879)
Share based compensation	210,386	391,039	(180,653)
Interest expense	1,827,241	1,503,032	324,209
Provision for loan and mortgage investment loss	112,726	-	112,726
Foreign exchange gain - realized	(41,634)	-	(41,634)
Foreign exchange loss - unrealized	1,271,596	-	1,271,596
	4,054,552	2,707,349	1,347,203
Income from operations before income taxes	214,982	1,300,411	(1,085,429)
Income taxes	100,158	354,973	(254,815)
Net income and comprehensive income	114,824	945,438	(830,614)

Total revenue for the three months ended March 31, 2016 experienced a significant increase compared to the same period last year. The Company's Loan Portfolio increased from \$78.6 million at March 31, 2015 to \$118.2 million at March 31, 2016.

Income from operations before income taxes for the three months ended March 31, 2016 was \$214,982 compared to \$1,300,411 for the three months ended March 31, 2015, primarily impacted by a significant unrealized foreign exchange loss stemming from the strengthening of the Canadian dollar against the US dollar denominated net assets.

Net income and comprehensive income for the three months ended March 31, 2016 was \$114,824, compared to \$945,438 for the corresponding period in 2015. The lower net income and comprehensive income was primarily a result of non-cash unrealized foreign exchange losses from the translation of the US dollar denominated net assets as the Canadian dollar strengthened against the US dollar.

INTEREST AND FEES EARNED

Interest and fees earned for the three months ended March 31, 2016 was \$4.2 million compared to \$4.0 million for the three months ended March 31, 2015 and \$5.1 million for the three months ended December 31, 2015. The increase in interest and fees earned from the same period last year was primarily due to the growth in the Company's Loan Portfolio, partially offset by lower weighted average effective interest rate. Interest and fees for the three months ended December 31, 2015, included \$896,000 of additional interest recognized due to early repayments of loans.

RENTAL INCOME AND PROPERTY OPERATING COSTS

The Company's proportionate share of the rental income from investment properties in operations jointly controlled by the Company for the three months ended March 31, 2016 was \$48,378 compared to \$47,348 for the same period last year. The Company's proportionate share of the property operating costs in investment properties in operations jointly controlled by the Company for the three months ended March 31, 2016 was \$16,092 compared to \$15,254 for the same period last year. The rental income and property operating costs for the three months ended December 31, 2015 were \$47,362 and \$15,269, respectively.

Share option Plan	\$ 166,665	\$ 239,869	\$ (73,204)
DSU Plan	43,721	151,170	(107,449)
	\$ 210,386	\$ 391,039	\$ (180,653)

Share-based payments associated with the Company's share option plan (the "Option Plan") amounted to \$210,386 for the three months ended March 31, 2016, compared to \$391,039 for the three months ended March 31, 2015. The decrease in share-based payments associated with the Option Plan was primarily due to the granting of 200,000 options during the three months ended March 31, 2016, compared to 980,889 options granted during the year ended December 31, 2015. (See "Shareholders Equity – Share-Based Compensation").

The Company has a Deferred Share Unit Plan (the "DSU Plan") to promote a greater alignment of interests between directors, officers and employees and the shareholders of the Company by linking a portion of the annual director retainer and annual bonus to officers or employees to the future value of the Company's Shares by awarding Deferred Share Units (the "DSUs") as compensation for services rendered.

Share-based payments associated with the DSU Plan for the three months ended March 31, 2016 amounted to \$43,721, compared to \$151,170 for the three months ended March 31, 2015. (See "Shareholders Equity – Share-Based Payments").

LIQUIDITY AND CAPITAL RESOURCES

LIQUIDITY

The return on the Loan Portfolio is an important component of the Company's financial results. The Company's investment strategy focuses on the total return of assets needed to support the underlying liabilities, asset-liability management and achieving an appropriate return on capital. The Company's continued focus is to manage risks and returns and to position its Loan Portfolio to take advantage of market opportunities while attempting to mitigate adverse effects. Material changes in market conditions may adversely affect the Company's net cash flow from operating activities and liquidity. A more detailed discussion of these risks is found under the "Risks and Uncertainties" section.

The Company expects to be able to meet all of its obligations as they become due and to provide for the future growth of the business. The Company has a number of financing sources to fulfill its commitments including (i) cash flow from its operating activities, (ii) loan and mortgage syndications, (iii) mortgages payable (iv) revolving operating facility (iv) issuance of shares and debentures, or any combination thereof.

LOAN AND MORTGAGE SYNDICATIONS

The Company enhances its Loan Portfolio through the Loan Syndications, short-term unsecured notes payable, revolving operating facility and the convertible debentures. These financial liabilities are designed to increase the Company's overall returns through the issuance of specific debt instruments bearing lower effective interest rates than those being realized on the Loan Portfolio itself, while lowering the Company's overall risk profile.

Loans and mortgages payable are funded through the following initiatives:

- (i) The syndication of certain Loan investments to private investors each participating in a prescribed manner on an investment by investment basis. In these cases, the investors rank on a pari-passu basis with the Company's share of Loan and Mortgage Investments.
- (ii) Conventional construction or permanent financing secured by the project or investment property. In these cases, the Company is generally in second position to the conventional construction lenders.

The Loan Portfolio that may initially be funded by the Company may then be syndicated to other lenders sourced by the Company on a pari passu basis. These syndications are governed by a loan servicing agreements. The terms of the syndication would mirror the terms of the loan with the exception of the interest rate paid to syndicated investors. In addition the Company would retain any commitment fee and certain other fees earned from the borrower. Management of the mortgage origination, funding, payouts and delinquency (if applicable) are all handled by Terra Firma MA Ltd. (the TFMA"), the subsidiary of the Company on behalf of the syndicate investors. The Company will be registered on the title documentation of the property and the syndicated investors will be secured through a loan servicing agreement with the Company.

The syndicated loan and Mortgage Investments are governed by the loan servicing agreement which stipulates the ownership interest of the syndicate investors in the loan investments and segregates the ownership of the syndicate investors from the Company. Each syndicated Loan and Mortgage Investment has a designated rate of return that the syndicated investors expect to earn from that Loan and Mortgage Investment. This specific rate will vary from mortgage to mortgage depending on the loan-to-value, mortgage position, location, term, and exit strategy. Under International Financial Reporting Standards ("IFRS") the Company recognizes the loan and mortgage investments and the loan syndications on a gross basis. The interest income earned and related interest expense on the syndicate investors are recognized in the statements of income and comprehensive income.

TFMA administers the Loan Syndications and all funding from and to syndicate investors are funded to and from the trust account held by this entity. The Loan Syndications have no recourse to the Company and there is no obligation of the Company to fund any principal or interest shortfalls.

TERRA FIRMA CAPITAL CORPORATION – MD&A

The following table presents details of the loan and mortgage syndications as at March 31, 2016 and December 31, 2015:

REVOLVING OPERATING FACILITY

On April 23, 2015, the Company entered into a Revolving Operating Facility Credit Agreement with a lending institution for a \$10 million secured revolving loan facility (the "Facility") with a 24-month term. Interest on advanced funds under the Facility is 9.5% per annum for the first 23 months and 12.0% thereafter. The Facility is subject to a redetermination of a borrowing base, calculated as a percentage of eligible loan and mortgage investments and subject to certain adjustments. As security for its obligations under the Facility, the Company has entered into certain security documents, including a general security agreement, a specific assignment of the Company's current and future participating loan interests in certain real estate investments located throughout Canada and the United States. The Facility allows the Company to fund and warehouse new investments while raising syndicate on and/or co-investment capital.

In connection with the Facility, the Company incurred lender and other third-party costs of \$204,717. The costs associated with the Facility have been deferred and are being amortized over the term of the Facility as interest expense using the effective-interest amortization method.

TERRA FIRMA CAPITAL CORPORATION – MD&A

For the three months ended March 31, 2016 and 2015, amortization of deferred financing costs reported as interest expense and financing costs related to the Facility, totaled \$25,534 and \$nil, respectively.

The following table presents details of the revolving operating facility as at March 31, 2016 and December 31, 2015:

CONVERTIBLE DEBENTURES

On September 29, 2014, the Company issued by way of private placement, unsecured subordinated convertible debentures (the "Debentures") in the principal amount of \$10,850,000. The Debentures bear interest at an annual rate of 7%, payable quarterly on the last business day of each calendar quarter and mature on September 27, 2017. The Debentures are convertible into Shares of the Company in whole or in part, at the option of the holder at any time up to maturity at a conversion price of \$0.72 per Share. The Company may, at any time prior to the maturity date and upon giving notice, prepay the Debentures in full or in part, by paying the holders thereof the outstanding principal amount plus all accrued and unpaid interest, provided that the market price per Share on the date on which the redemption notice is provided is at least 125% of the conversion price.

The fair value of the liability component of the Debentures was calculated by discounting the stream of future principal and interest payments at the rate of 8.0% which represents the rate of interest prevailing at the date of issue for instruments of similar terms and risks. The debt component was assigned a value of \$10,486,460 (net of transaction costs of \$76,962) and the equity component was assigned a value of \$284,490 (net of transaction costs of \$2,088). The effective interest rate of the Debentures is 8.53%.

Certain directors and officers hold Debentures in an aggregate principal amount of \$1,330,000.

The following table summarizes the changes in the Debentures for the three months ended March 31, 2016 and 2015:

	Amount

Certain officers and directors participated in the private placement and the Company issued 811,765 Shares to those officers and directors for gross proceeds of \$690,000.

SHARE-BASED PAYMENTS

(a) Share Option Plan

Pursuant to the Option Plan, the Company may grant eligible directors, officers, senior management and consultants options to purchase Shares. The exercise price of each option shall be determined by the board of directors and in accordance with the Option Plan and the policies of the Exchange. Subject to the policies of the Exchange, the board of directors may determine the time during which options shall vest and the method of vesting, or that no vesting restriction shall exist, provided that no option shall be exercisable after five years from the date on which it is granted.

Pursuant to the employment agreement between the Company and the CEO, the CEO was eligible to receive options equal to 5% of the Shares issued outstanding through to December 31, 2015, at the price determined by the Board.

On May 11, 2015, the Company granted share options to officers and employees of the Company to purchase an aggregate of 980,889 Shares at \$0.85 per share. 25% of the share options vested immediately upon grant, with an additional 25% vesting at the end of each 90-day period thereafter.

The fair value of the share options granted was estimated on each of the dates of grant, using the Black-Scholes option pricing model, with the following assumptions:

	Options grant dates	
	March 31, 2016	May 11, 2015
Average expected life	7.00 years	5.00 years
Average risk-free interest rate	0.89%	0.80%
Average expected volatility	81.61%	89.45%
Average dividend yield	0.00%	0.00%

The fair value of options granted on March 31, 2016 and May 11, 2015 were \$108,853 and \$574,801, respectively.

On March 31, 2016, the CEO exercised 895,000 Options that had been previously granted to purchase the Company's Shares at \$0.30 with an expiry date of January 24, 2016. The consideration of \$268,500, received on exercising the Options was recorded as share capital and the related contributed surplus of \$252,390 was transferred to share capital.

For the three months ended March 31, 2016 and 2015, the Company recorded share-based compensation expense relating to the Option Plan, with an offsetting increase to contributed surplus of \$166,665 and \$239,869, respectively.

TERRA FIRMA CAPITAL CORPORATION – MD&A

The following is the summary of changes in the Company's share options for the three months ended March 31, 2016 and year ended December 31, 2015:

(b) Deferred Share Unit Plan

The Company has a DSU Plan to promote a greater alignment of interests between directors, officers and employees and the shareholders of the Company by linking a portion of the annual director retainer and annual bonus to officers or employees to the future value of the Company's Shares by awarding DSUs as compensation for services rendered.

The Board determines the amount, timing, and vesting conditions associated with each award of DSUs. Directors may elect to receive, on the last day of each quarter, a minimum of 50% and up to 100% of their annual retainer in DSUs and employees may elect to receive up to 100% of their annual bonus in DSUs. DSUs granted pursuant to such an election are fully vested on the date of grant. In addition, when the Directors or employees elect to receive 50% or more of their fees or annual bonus in DSUs, the Company will grant additional DSUs of up to 50% of the value of the DSUs granted to employees and directors. 50% of the additional DSUs granted by the Company vest in 6 months from the date of grant and 50% of the additional DSUs vest in twelve months from the date of grant.

Each DSUs has the same value as one Share (based on the five day volume weighted average trading price). Directors must retain DSUs until they leave the Board of Directors, or in the case of officers or employees, until their employment is terminated, at which time the redemption payment equal to the value of the DSUs, calculated as the volume weighted average closing price of the Shares for the last five days preceding the redemption date, net of applicable taxes are paid out.

TERRA FIRMA CAPITAL CORPORATION – MD&A

The following table presents the changes in DSUs for the three months ended March 31, 2016 and year ended December 31, 2015:

	Number of DSUs	
	March 31, 2016	December 31, 2015

Granted	79,083	1,009,296
DSUs outstanding, end of period	1,836,084	1,757,001
Number of DSUs vested	1,603,130	1,525,530

The total cost recognized with respect to DSUs, including the change in fair value of DSUs during the three months ended March 31, 2016 and 2015, were \$210,386 and \$391,039, respectively.

The carrying amount of the liability, included in accounts payable and accrued liabilities relating to the DSUs at March 31, 2016 is \$1,218,378 (December 31, 2015 - \$1,174,657).

(c) Broker warrants

On October 14, 2015, 140,000 broker warrants to purchase the Company's Shares at \$0.63 per share with the expiry date of October 16, 2015 granted to underwriters were exercised. The total consideration received on the exercise of broker warrants was \$88,200.

On July 29, 2015, 420,000 broker warrants to purchase the Company's Shares at \$0.63 per share with the expiry date of October 16, 2015 granted to underwriters were exercised. The total consideration received on the exercise of broker warrants was \$264,600.

As part of the Offering completed on May 5, 2015, the Company granted 1,014,713 broker warrants to underwriters as partial consideration for their services associated with the Offering. Each broker warrant entitles the holder to acquire one Share of the Company at an exercise price of \$0.85 per Share, with an expiry date of May 5, 2017.

The following is the summary of changes in broker warrants for three months ended March 31, 2016 and 2015:

	Number of broker warrants outstanding	Fair value	Exercise price
Outstanding, December 31, 2014	560,000	\$ 106,235	\$ 0.63

RELATED PARTY TRANSACTIONS AND ARRANGEMENTS

At March 31, 2016 and December 31, 2015, the Chairman of the Board of the Company, indirectly through a wholly owned subsidiary, owned approximately 11% of the issued and outstanding shares of the Company.

Related party transactions are measured at the exchange amount, which is the amount of consideration established and offered by related parties.

LOAN AND MORTGAGE INVESTMENTS

During the three months ended March 31, 2016, the Company advanced loan investment of \$845,008 to a company controlled by the Chairman of the Company at the interest rate 12% annum and recognized interest and fees revenue of \$3,428 during the year. At March 31, 2016, the loan remained unpaid.

LOAN AND MORTGAGE SYNDICATIONS, SHORT-TERM UNSECURED LOANS PAYABLE AND CONVERTIBLE DEBENTURES

Certain of the Company's loan and mortgage investments are syndicated with other investors of the Company, which may include officers or directors of the Company. The Company ranks equally with other members of the syndicate as to payment of principal and interest.

At March 31, 2016 and December 31, 2015, the Loan Portfolio and convertible debentures syndicated by officers and directors were \$1,794,848 and \$1,844,848, respectively. No loans or investments were issued to borrowers controlled by or related to officers or directors of the Company.

SHAREHOLDERS' EQUITY

On March 31, 2016, the CEO exercised 895,000 Options that had been previously granted to purchase the Company's Shares at \$0.30 with an expiry date of January 24, 2016. The consideration of \$268,500, received on exercising the Options was recorded as share capital and the related contributed surplus of \$252,390 was transferred to share capital.

On May 5, 2015, concurrent with the closing of the Offering, the Company issued 811,765 Shares through a non-brokered private placement at a price of \$0.85 per Share to certain officers and Directors of the Company, for gross proceeds of \$690,000.

SIGNIFICANT ACCOUNTING POLICIES AND CHANGES IN ACCOUNTING POLICIES

A summary of the significant accounting policies are described in Note 2 to the audited consolidated financial statements for the year ended December 31, 2015.

The Company implemented the amendments to IAS 1, Presentation of Financial Statements, ("IAS 1 Amendments") in the first quarter of 2016, with no significant impact on the Company's unaudited condensed consolidated interim financial statements.

USE OF ESTIMATES

The preparation of the Company's consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the year. Actual results may differ from these estimates.

In making estimates, the Company relies on external information and observable conditions where possible, supplemented by internal analysis as required. Those estimates and judgments have been applied in a manner consistent with the prior year and there are no known trends, commitments, events or uncertainties that the Company believes will materially affect the methodology or assumptions utilized in making those estimates and judgments in these consolidated financial statements.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant are disclosed separately. Changes to estimates and assumptions may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of these consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could also differ from those estimates under different assumptions and conditions.

Changes to estimates and assumptions may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of these consolidated financial statements and the reported amounts of revenue and expenses during the years. Actual results could also differ from those estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

FINANCIAL INSTRUMENTS

The Company, as part of its operations, carries a number of financial instruments. The Company's financial instruments consist of cash and cash equivalents, funds held in trust, interest and other receivables, Loan Portfolio, portfolio investment, accounts payable and accrued liabilities, provision for discontinued operations, loans and mortgages payable, short-term unsecured notes payable and the liability component of convertible debentures.

The fair value of interest and other receivables and accounts payable and accrued liabilities approximate their carrying values due to their short-term maturities.

The fair value of loans and mortgage investments, Loan Syndications, mortgages payable, unsecured-notes payable, revolving operating facility and convertible debentures approximate their carrying value as they are short-term in nature. There is no quoted price in an active market for the loans and mortgage investments, Loan Syndications or convertible debentures. The Company makes the determinations of fair value based on its assessment of the current lending market for Loan Portfolio of same or similar terms. As a result, the fair value is based on Level 3 on the fair value hierarchy.

The Company uses various methods in estimating the fair values recognized in the consolidated financial statements. The fair value hierarchy reflects the significance of inputs used in determining the fair values.

- Level 1 - quoted prices in active markets
- Level 2 - inputs other than quoted prices in active markets or valuation techniques where significant inputs are based on observable market data; and
- Level 3 - valuation technique for which significant inputs are not based on observable market data.

The fair value of the Company's investment properties, Portfolio Investments and non-controlling interest are determined by using Level 3 inputs at March 31, 2016 and December 31, 2015 and no amounts were transferred between fair value levels during 2016 or 2015.

OFF BALANCE SHEET ITEMS

As of March 31, 2016 and December 31, 2015, the Company did not have any off-balance sheet (statement of financial position) arrangements.

RISKS AND UNCERTAINTIES

There are certain risks inherent in an investment in the securities of the Company and in the activities of the Company, including the following, which current and prospective holders of securities of the Company should carefully consider. If any of the following or other risks occurs, the Company's business, prospects, financial condition, financial performance and cash flows could be materially adversely impacted. In that case, the trading price of the securities of the Company could decline and investors could lose all or part of their investment in such securities. There is no assurance that risk management steps taken will avoid future loss due to the occurrence of the risks described below or other unforeseen risks.

GENERAL BUSINESS RISKS

The Company is subject to general business risks and to risks inherent in the commercial and residential real estate lending, including both the making of loans secured by real estate and the development and ownership of real property. Income and gains from the Company's investments may be adversely affected by:

- i. changes in national or local economic conditions,
- ii. changes in demand for newly constructed residential units,
- iii. the inability of property owners to secure and retain tenants,
- iv. the financial inability of tenants to meet their lease obligations,
- v. changes in interest rates and in the availability, cost and terms of any mortgage or other financing,
- vi. the impact of present or future environmental legislation and compliance with environmental laws,
- vii. changes in real estate assessed values and taxes payable on such values and other operating expenses, or
- viii. civil unrest, acts of God, including earthquakes and other natural disasters and acts of terrorism or war (which may result in uninsured losses).

TERRA FIRMA CAPITAL CORPORATION – MD&A

Any of the foregoing events could impact the ability of borrowers to timely repay (if at all) loans made by the Company, negatively impact the value or viability of a development project in which the Company has invested or negatively impact the value of portfolio properties of the Company or their ability to generate positive cash flow.

In addition, the Company may be unable to identify and complete investments that fit within its investment criteria. The failure to make a sufficient number of these investments would impair the future growth of the Company.

CREDIT RISK

Credit risk is the risk of financial loss from the failure of a borrower, for any reason, to fully honour its financial or contractual obligations to the Company, primarily arising from the Company's loan and mortgage investment activities. Fluctuations in real estate values may increase the risk of default and may also reduce the net realizable value of the collateral property to the Company. Credit losses occur when a borrower fails to meet its obligations to the Company and the value realized on the sale of the underlying security deteriorates below the carrying amount of the exposure.

The Company is exposed to credit risk on all of its financial assets and its exposure is generally limited to the carrying amount on the consolidated statements of financial position.

Cash and cash equivalents are held with financial institutions that management believes are of high credit quality.

The Company mitigates the risk of credit losses on its Loan Portfolio by maintaining strict credit policies and conducting thorough investment due diligence, ensuring loans and mortgages have risk-adjusted loan to value, together with personal guarantees by the borrowers and parties related to the borrowers, reviewing and approving new loans and mortgages and continually monitoring change in value of underlying collateral.

The Company regularly reviews the Loan Portfolio and interest receivable listing for balances in arrears and follows up with clients as needed regarding payment. For individual accounts in arrears where discussion with the client has not succeeded, foreclosure proceedings commence. Balances receivable include accrued interest and legal and other costs related to attempts at collection. Where the loan investments are collateralized by real property and losses are recognized to the extent that recovery of the balance through sale of the underlying property is not reasonably assured.

At March 31, 2016, loan and mortgage investment totaling \$12,863,396 (including interest receivable on these loans totaling \$683,961) to the Borrower and its affiliates, are in arrears, of which \$3,030,657 including interest payable have been syndicated. The foreclosure/power of sale process has commenced and is proceeding on these loans to enforce the security. Subsequent to March 31, 2016, certain affiliates of the Borrower announced restructuring proceedings under the *Bankruptcy and Insolvency Act (Canada)*. Based on the most recent valuations of the underlying assets, the Company has not identified any loans in arrears for which a loss provision should be made.

CURRENCY RISK

Currency risk is the risk that the fair value or future cash flows of the Company's foreign currency denominated Loan Portfolio, Loan Syndications and cash and cash equivalents will fluctuate based on changes in foreign currency exchange rates.

The following table presents the amounts denominated in U.S. dollars as at March 31, 2016 and December 31, 2015:

	March 31, 2016	December 31, 2015
Cash and cash equivalents	\$ 1,035,129	\$ 5,654,478
Amounts receivable and prepaid expenses	1,225,953	750,357
Loan and mortgage investments	32,223,057	27,501,479
Accounts payable and accrued liabilities	(490,303)	(378,403)
Short-term unsecured notes payable	(2,300,000)	(3,000,000)
Loan and mortgage syndications	(15,959,328)	(10,262,750)
	\$ 15,734,508	\$ 20,265,161

Currently, the Company does not use derivative instruments to reduce its exposure to foreign currency risk. Consequently, the Company is subject to currency fluctuations that may impact its financial position and results. The Company manages its currency risk on Loan Portfolio by syndicating and or borrowing in the same currency.

INTEREST RATE RISK

Interest rate risk arises due to exposure to the effects of future changes in the prevailing level of interest rates. The Company is exposed to interest rate risk arising from fluctuations in interest rates primarily on its loan and mortgage investments, debentures payable, loan and mortgage syndications and mortgages payable.

The Company mitigates its exposure to this risk by entering into contracts having either fixed interest rates or interest rates pegged to prime for its loan and mortgage investments, loan and mortgage syndications, mortgages payable and asset liability matching. Such risk is further mitigated by the general short term nature of loan and mortgage investments.

LIQUIDITY RISK

Liquidity risk is the risk the Company will not be able to meet its financial obligations as they come due. The Company's approach to managing liquidity risk is to ensure, to the extent possible, that it always has sufficient liquidity to meet its liabilities when they come due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's credit worthiness.

The Company manages liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities.

SUBORDINATED DEBT FINANCING

Subordinated financings that are carried on by the Company would generally be considered riskier than primary financing because the Company will not have a first-ranking charge on the underlying property. When a charge on a property is in a position other than first-ranking, it is possible for the holder of a prior charge on the property to realize on the security given for the loan, in priority to and to the detriment of the Company's security interest in such property or security.

DEVELOPMENT STRATEGY

Any development projects in which the Company invests are subject to a number of risks, including, but not limited to:

- (i) construction delays or cost overruns that may increase project costs,
- (ii) financing risks,
- (iii) the failure to meet anticipated occupancy or rent levels,
- (iv) failure to meet anticipated sale levels or prices,
- (v) failure to receive required zoning, land use and other governmental permits and authorizations and/or
- (vi) changes in applicable zoning and land use laws.

INVESTMENTS IN JOINT OPERATIONS

In any joint operations in which the Company invests, the Company may not be in a position to exercise sole decision-making authority. Investments in joint operations may, under certain circumstances, involve risks not present when a third party is not involved, including the possibility that joint operations partners might become bankrupt or fail to fund their share of required capital contributions. Joint operations partners may have business interests or goals that are inconsistent with the Company's business interests or goals and may be in a position to take actions contrary to the Company's policies or objectives. Any disputes that may arise between the Company and its joint operations partners could result in litigation or arbitration that could increase the Company's expenses and distract its officers and/or directors from focusing their time and effort on the Company's business. In addition, the Company might in certain circumstances be liable for the actions of its joint operations partners.

DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROLS OVER FINANCIAL REPORTING

The Company's CEO and Chief Financial Officer ("CFO") are responsible for establishing and maintaining the Company's disclosure controls and procedures. The Company's disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed by the Company is recorded, processed, summarized and reported within the time periods specified under Canadian securities laws, and include controls and procedures that are designed to ensure that information is accumulated and communicated to management, including the CEO and CFO, to allow timely decisions regarding required disclosure. As of the end of the period covered by this MD&A, the Company's CEO and CFO evaluated the Company's disclosure controls and procedures and, based upon that review and evaluation, concluded that those disclosure controls and procedures are effective.

The Company is not required to certify the design and evaluation of its disclosure controls and procedures. Inherent limitations on the ability of the certifying officers to design and implement, on a cost effective basis, disclosure controls and procedures for the Company may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with IFRS. Given the small size of the Company, and, consequently, limited staff levels, certain duties within the accounting and finance department cannot be properly segregated. However, none of the segregation deficiencies is likely to result in a misstatement to the consolidated financial statements as the Company relies on certain compensating controls, including the detailed monitoring of operations and transactions by the CEO and CFO. No material changes were made in the Company's internal control over financial reporting during the three months ended March 31, 2016.

The Company is not required to certify the design and evaluation of its internal control over financial reporting and has not completed such an evaluation. Inherent limitations on the ability of the certifying officers to design and maintain, on a cost effective basis, internal control over financial reporting for the Company may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

FUTURE OUTLOOK

The following section includes certain forward looking statements, including in regards of the Company's objectives and priorities. Please refer to the section titled "Caution Regarding Forward Looking Statements" on page 1 of this MD&A.

The objective of the Company is to provide attractive returns to shareholders over the long-term, through appreciation in net book value. Management believes that there is currently a significant market opportunity to identify and fund such loans as a result of financing needs not being met by traditional institutional lenders. Management believes there will be significant opportunities for the Company to expand its presence in the market; however, it continues to be prudent in its approach to selection of new investments and pricing. Management expects to be able to generate interest rates similar to those reflected in the current portfolio in 2016.

The Company's ability to achieve its objectives is dependent on management's ability to execute on its business strategy as described while also successfully mitigating business risks as discussed in this MD&A.
